INTRODUCTION

INTRODUCTION

The Monthly Index to Photographic Exploitation Products is an indexing periodical covering imagery exploitation products which were produced or received by the National Photographic Interpretation Center (NPIC) for input into the Exploitation Products Data File (EPDF) of the National Base of Imagery Derived Information (NBIDI). At the request of the intelligence community this publication is compiled and published monthly by NPIC for the use of properly cleared components of USIB member organizations. Included are imagery interpretation reports received from various components of the U.S. Army, the U.S. Navy, the U.S. Air Force, the CIA, the DIA, [REDACTED]

PEP is a comprehensive collection of:

- Mission Exploitation Reports
- Basic Imagery Interpretation Reports & Briefs
- Direct Support Published Reports
- Direct Support Unpublished Reports

ORGANIZATION OF PEP

PEP consists of four indices: subject in alphabetic sequence, originator in report type/number sequence, general category with subject in alphabetic sequence, and geographic coordinate sequence.

A cumulative index for each calendar year is published for the convenience of USIB member organizations. Recipients are encouraged to destroy the monthly publications upon receipt of the annual consolidation report.

UTILITY OF PEP

When interest is concentrated in specific areas, readers may wish to scan the indexes which are cross-indexed for research/reference purposes.

AVAILABILITY OF PEP AND LISTED DOCUMENTS

PEP is available to all USIB member organizations that are authorized to use it. Distribution is controlled by NPIC.

Documents listed in PEP have been placed on microfiche and are available in that form from NPIC when parent organizations are unable to provide copies.

EPDF information/document storage and retrieval services are available to answer specific requests/requirements that cannot be obtained from PEP or the annual cumulative index.

HOW TO OBTAIN PEP, LISTED DOCUMENTS, OR EPDF RETRIEVAL SERVICES

All requests for EPDF services should be channeled through appropriate liaison offices located in NPIC. Those organizations that do not maintain a liaison office at NPIC should submit the request in writing to: Chief, Requirements and Analysis Division (PPES/RAD).

GUIDE TO USERS

The column headings and symbols used in the index are explained below.

SUBJECT

Entries in this column include the city or location covered by the report, followed by the type of installation and subject. Standard abbreviations are used.

ORIGINATOR (ORIG)

The originating component is indicated in this column by means of standard abbreviations.

TYPE OF REPORT (TYPE)

Symbols used for the various report types are as follows:

Mission Exploitation Reports

MCP Mission Track

REPT Photographic Interpretation Report (IPIR)

Basic Imagery Interpretation Reports & Briefs

BIIB Basic Imagery Interpretation Brief

BIIR Basic Imagery Interpretation Report

Direct Support Published Reports

BREF Photographic Interpretation Brief

DPIR Detailed Photographic Interpretation Report

NOTE Photographic Interpretation Note

PIM Photographic Interpretation Memorandum

REPT Photographic Interpretation Report

SPIR Special Photographic Intelligence Report

REPORT OR CONTROL NUMBER (REPT NR)

This report number is given as it appears on the subject document.

REPORT DATE (DATE)

The report date is given in month and year.

MISSION NUMBER (MSN NR)

The number of the latest photographic mission from which the information was derived is listed where applicable.

COORDINATES (COORD)

The geographic location of the report is listed where a single area is involved.

COUNTRY (CY)

The location of the subject of the report by country is entered in this column as a two-letter designator following the accepted Basic Encyclopedia code.

SECURITY CLASSIFICATION (SC)

The security classification is indicated in this column by means of the following numerical code:

00-Unclassified

ACCESSION NUMBER (ACC NR)

A Control Number assigned by NPIC is listed.

The general subject listing in Part III is categorized as follows:

AIR FACILITIES includes airfields, seaplane stations, aircraft, production, storage, and related installations or equipment.

AREA/COMPLEX REPORTS GENERAL includes complex studies (i.e., city-town), unidentified installations or equipment, and terrain or agriculture analyses.

BIOLOGICAL/CHEMICAL WARFARE includes research, production, testing, training, and storage facilities.

COMPREHENSIVE REPORTS includes mission readouts, summaries, and country or area studies.

ELECTRONICS/COMMUNICATIONS includes radar, radio, instrumentation installations, equipment, and production.

INDUSTRY includes power facilities, but excludes shipbuilding.

MILITARY includes installations or equipment other than naval- or air-related.

MISSILES includes sites and related research, production, storage, and instrumentation installations or equipment.

GUIDE TO USERS (CONTINUED)

NUCLEAR includes mining, production, testing, storage installations, and related equipment.

OVERLAY/PLOTS includes Mission Coverage Plots, Mission Coverage Statistics, tracks, and annotated maps.

RESEARCH AND DEVELOPMENT FACILITIES includes technical publications and installations not included in another subject category.

SHIPS, SHIPYARDS, AND PORTS includes naval bases, research, storage, and related installations or equipment.

STORAGE FACILITIES includes nonmilitary installations or facilities.

TRANSPORT AND PIPELINE SYSTEMS includes road, rail, and inland waterway studies and related installations or equipment.

INTRODUCTION

INTRODUCTION

The Monthly Index to Photographic Exploitation Products is an indexing periodical covering imagery exploitation products which were produced or received by the National Photographic Interpretation Center (NPIC) for input into the Exploitation Products Data File (EPDF) of the National Base of Imagery Derived Information (NBIDI). At the request of the intelligence community this publication is compiled and published monthly by NPIC for the use of properly cleared components of USIB member organizations. Included are imagery interpretation reports received from various components of the U.S. Army, the U.S. Navy, the U.S. Air Force, the CIA, the DIA, [REDACTED]

PEP is a comprehensive collection of:

- Mission Exploitation Reports
- Basic Imagery Interpretation Reports & Briefs
- Direct Support Published Reports
- Direct Support Unpublished Reports

ORGANIZATION OF PEP

PEP consists of four indices: subject in alphabetic sequence, originator in report type/number sequence, general category with subject in alphabetic sequence, and geographic coordinate sequence.

A cumulative index for each calendar year is published for the convenience of USIB member organizations. Recipients are encouraged to destroy the monthly publications upon receipt of the annual consolidation report.

UTILITY OF PEP

When interest is concentrated in specific areas, readers may wish to scan the indexes which are cross-indexed for research/reference purposes.

AVAILABILITY OF PEP AND LISTED DOCUMENTS

PEP is available to all USIB member organizations that are authorized to use it. Distribution is controlled by NPIC.

Documents listed in PEP have been placed on microfiche and are available in that form from NPIC when parent organizations are unable to provide copies.

EPDF information/document storage and retrieval services are available to answer specific requests/requirements that cannot be obtained from PEP or the annual cumulative index.

HOW TO OBTAIN PEP, LISTED DOCUMENTS, OR EPDF RETRIEVAL SERVICES

All requests for EPDF services should be channeled through appropriate liaison offices located in NPIC. Those organizations that do not maintain a liaison office at NPIC should submit the request in writing to: Chief, Requirements and Analysis Division (PPBS/RAD).

GUIDE TO USERS

The column headings and symbols used in the index are explained below.

SUBJECT

Entries in this column include the city or location covered by the report, followed by the type of installation and subject. Standard abbreviations are used.

ORIGINATOR (ORIG)

The originating component is indicated in this column by means of standard abbreviations.

TYPE OF REPORT (TYPE)

Symbols used for the various report types are as follows:

Mission Exploitation Reports

MCP Mission Track

REPT Photographic Interpretation Report (IPIR)

Basic Imagery Interpretation Reports & Briefs

BIIB Basic Imagery Interpretation Brief

BIIR Basic Imagery Interpretation Report

Direct Support Published Reports

BREF Photographic Interpretation Brief

DPIR Detailed Photographic Interpretation Report

REPORT OR CONTROL NUMBER (REPT NR)

This report number is given as it appears on the subject document.

REPORT DATE (DATE)

The report date is given in month and year.

MISSION NUMBER (MSN NR)

The number of the latest photographic mission from which the information was derived is listed where applicable.

COORDINATES (COORD)

The geographic location of the report is listed where a single area is involved.

COUNTRY (CY)

The location of the subject of the report by country is entered in this column as a two-letter designator following the accepted Basic Encyclopedia code.

SECURITY CLASSIFICATION (SC)

The security classification is indicated in this column by means of the following numerical code:

00-Unclassified

ACCESSION NUMBER (ACC NR)

A Control Number assigned by NPIC is listed.

The general subject listing in Part III is categorized as follows:

AIR FACILITIES includes airfields, seaplane stations, aircraft, production, storage, and related installations or equipment.

AREA/COMPLEX REPORTS GENERAL includes complex studies (i.e., city-town), unidentified installations or equipment, and terrain or agriculture analyses.

BIOLOGICAL/CHEMICAL WARFARE includes research, production, testing, training, and storage facilities.

COMPREHENSIVE REPORTS includes mission readouts, summaries, and country or area studies.

ELECTRONICS/COMMUNICATIONS includes radar, radio, instrumentation installations, equipment, and production.

INDUSTRY includes power facilities, but excludes shipbuilding.

MILITARY includes installations or equipment other than naval- or air-related.

MISSILES includes sites and related research, production, storage, and instrumentation installations or equipment.

GUIDE TO USERS (CONTINUED)

NUCLEAR includes mining, production, testing, storage installations, and related equipment.

OVERLAY/PLOTS includes Mission Coverage Plots, Mission Coverage Statistics, tracks, and annotated maps.

RESEARCH AND DEVELOPMENT FACILITIES includes technical publications and installations not included in another subject category.

SHIPS, SHIPYARDS, AND PORTS includes naval bases, research, storage, and related installations or equipment.

STORAGE FACILITIES includes nonmilitary installations or facilities.

TRANSPORT AND PIPELINE SYSTEMS includes road, rail, and inland waterway studies and related installations or equipment.
